

 **AURACAST**  
A BLUETOOTH™ TECHNOLOGY  
**CAPABLE DEVICES**  
Updated 11/24/2024

◆ Hearing aids with this symbol are **Auracast-enabled** which means the product can receive an Auracast signal.

◀ This symbol indicates a device is **Auracast-Ready** - It is capable of receiving an Auracast but must first receive an over-the-air software update to do so, and the update has not yet been issued.

↔ Indicates that the device is listed in more than one place on this list.
